

WE DON'T KNOW HOW FAR SHE'LL RUN TODAY.

BUT IT'S GOING TO BE FARTHER
THAN YESTERDAY.

Several months ago diabetes took her off her feet and out of the race.

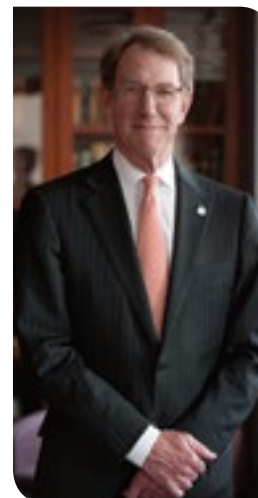

Outstanding clinical care and cutting-edge research helped her minimize complications and put her back on track.

You're healthier because we're here.

**Community Focus.
World Impact.**

From the President

"Eastern Virginia Medical School is one of the region's most powerful economic engines." That's how Dr. James Koch opened his 2012 report, *The Economic Impact of Eastern Virginia Medical School in Hampton Roads*.

We're still beaming.

But we didn't get there alone. Four decades ago, after years of planning and fundraising, a group of civic-minded leaders planted an important seed. Thanks to a community that nurtured this seed, EVMS has grown into a strong tree with roots firmly embedded throughout the region and important branches that benefit us all: high-quality

patient care, rigorous health and medical education, and cutting-edge research.

These branches also shelter us, providing financial benefits to Hampton Roads and helping the region weather economic downturns. As Dr. Koch reported, EVMS now has an annual economic impact on the region of more than \$823.6 million.

So, on behalf of our founders, Board volunteers, faculty, staff and students, I offer our heartfelt thanks to the Economics Club of Hampton Roads for presenting EVMS with the 2013 Economic Impact Award. And to everyone in Hampton Roads, thank you for continuing to nurture EVMS.

Harry T. Lester
President

Our Mission

Eastern Virginia Medical School is an academic health center dedicated to achieving excellence in medical and health professions education, research and patient care. We value creating and fostering a diverse and cohesive faculty, professional staff and student body as the surest way to achieve our mission. Adhering to the highest ethical standards, we will strive to improve the health of our community and to be recognized as a national center of intellectual and clinical strength in medicine.

Our Vision

Eastern Virginia Medical School will be recognized as the most community-oriented school of medicine and health professions in the nation.

Our Values

Three core values drive our daily efforts:

- **Excellence:** We determine with our stakeholders what is valuable and hold ourselves to high performance standards that fulfill our promises.
- **Collegiality:** We serve our community and one another, building strong and mutually supportive relationships. We work as a cooperative, united team to further our purposes of education, research and patient care.
- **Integrity:** We strive to maintain the highest ethical standards and accept accountability for all we do and say.

EVMS Board of Visitors

The Board of Visitors is the governing body of EVMS. Members are appointed by the Governor, both houses of the state legislature, the cities that support the school and the EVMS Foundation.

3,752 additional jobs
are generated locally each
year because of the EVMS
economic ripple effect

Economic Impact of EVMS

In February 2012, noted regional economist James V. Koch, PhD, reported on his evaluation of the school's imprint on the regional economy. He found that EVMS-related economic activity grew at nearly three times the rate of the region since 2007. He estimated the school's annual impact at \$824 million and indicated it could have grown to nearly \$1 billion were it not for the recession.

Annual economy impact:	\$823.6 million
------------------------	-----------------

EVMS rank among private-sector employers in Hampton Roads:	20
--	----

Estimated annual impact of EVMS alumni in Hampton Roads:	\$222 million
--	---------------

Value of charitable services, including uncompensated care:	\$54 million
---	--------------

Economic ripple effect from EVMS activities:	\$500 million
--	---------------

Additional jobs generated locally because of EVMS economic ripple effect:	3,752
---	-------

Cost to Hampton Roads if EVMS Did Not Exist

Cost of indigent care borne by other area medical providers:	\$82.3 million
--	----------------

Lost medical revenue from paying patients at EVMS practices:	\$51.6 million
--	----------------

Costs incurred by patients forced to travel to health providers in other areas:	\$86.5 million
---	----------------

Total:	\$220.4 million
--------	-----------------
